

## Department of Botany & Plant Sciences

### 250 Seminar Series – Fall 2014

Wednesdays from 4:10 - 5:00 PM, Genomics Auditorium

Date	Speaker	Title
<b>October 8</b>	Michelle Facette University of California, San Diego	Proteome dynamics and cellular asymmetries during maize leaf development.
<b>October 15</b>	Peggy Mauk University of California, Riverside	Opportunities for field and greenhouse research
<b>October 22</b>	George Vourlitis Cal State University, San Marco	TBA
<b>October 29</b>	Rejbana Alam University of California, Riverside	Pyramiding multiple abiotic stress tolerances in rice: Molecular assessment of combined submergence, anaerobic germination and salinity tolerance.
<b>November 5</b>	Yi Zhu University of California, Riverside	TBA
<b>November 12</b>	Amanda Swanson University of California, Riverside	TBA
<b>November 19</b>	Mercedes Shroeder University of California, Riverside	Two different systems to study plant immunity.
<b>November 26</b>	Rachel Rattner University of California, Riverside	Effects of Small RNA Expression on Citrus Fruit Quality.
<b>December 3</b>	Rodrigo Iturrieta University of California, Riverside	MAPPING PHENOTYPIC PROFILES OF “HASS” AVOCADO ( <i>Persea americana</i> , Mill.) SHOOTS BY FRUIT PRESENCE
<b>December 10</b>	BPS200- Linda Walling University of California, Riverside	BPS200 Student talks
