

Department of Botany & Plant Sciences

250 Seminar Series – Spring 2017

Wednesdays from 4:10 - 5:00 PM, Genomics Auditorium

	Speaker	Title
April 5	Rachel Meyer Executive Director of the UC Conservation Genomics Consortium University of California, Los Angeles	Monitoring California's biodiversity with environmental DNA: the UC Conservation Genomics Consortium outlook
April 12	Michala Phillips Graduate Student University of California, Riverside	"Impacts of invasion on soil fungal communities and soil-water status serving as possible barriers to Chaparral restoration"
	Yingnan Ho Postdoctoral Scholar University of California, Riverside	"Phased siRNAs derived from specific gene loci regulate plant immunity"
April 19	Sassoum Lo Graduate Student University of California, Riverside	"Genetic analysis of domestication-related traits in cowpea"
	Susan Cohen Postdoctoral Scholar University of California, San Diego	"The cyanobacterial circadian clock: when and where"
April 26	Patrick Thomas Graduate Student University of California, Riverside	TBA
May 3	Jeff Diez Assistant Professor University of California, Riverside	TBA
May 10	Michael Schwartz Graduate Student University of California, Riverside	TBA
May 17	Lorena-Villanueva-Almanza Graduate Student University of California, Riverside	TBA
May 24	Dr. Caroline Yue-IHSING Distinguished Research Fellow Academia Sinica, Taiwan	"Genomics and translational approaches to study ethnobotany A case study: Taiwan oil millet"

Department of Botany & Plant Sciences

250 Seminar Series – Spring 2017

Wednesdays from 4:10 - 5:00 PM, Genomics Auditorium

May 31	Dr. Rodolfo Dirzo Stanford University Gomez-Pompa Lecturer	TBA
June 7	Danelle Seymour Postdoc University of California, Irvine	TBA
	Ricardo Mir-Moreno Postdoctoral Scholar	TBA

Instructor: Dawn Nagel (951) 827-4425
