

Genetics, Genomics & Bioinformatics and Institute for Integrative Genome Biology

261 Seminar Series – Spring 2009

Date	Speaker	Location and Time	Host
4/10/2009 (FRI)	Molly Schmidt , Keck Graduate Institute <i>Improving the Process of Drug Discovery – The Impact of Genetics, Genomics and Bioinformatics</i>	Engineering II Rm138 (12:10pm)	Michelle Brown (student)
4/17/2009 (FRI)	Renata Koenig , Burnham Institute <i>Global Analysis of Host-Pathogen Interactions Using Systems Biology</i>	Engineering II Rm138 (12:10pm)	Anand Ray
4/24/2009 (FRI)	Monica Medina , UC Merced <i>From Genes to Ecosystems: Integrative Approaches to the Study of the Coral Holobiont</i>	Engineering II Rm138 (12:10pm)	Shruti Lal (student)
5/1/2009 (FRI)	Karine Le Roch , UCR <i>A System Biology Approach to Understand Transcriptional Regulation in the Human Malaria Parasite, Plasmodium falciparum.</i>	Engineering II Rm138 (12:10pm)	joint with IGERT
5/8/2009 (FRI)	Ravishankar Palanivelu , Univ of Arizona <i>Multiple signals are essential for pollen tube guidance to ovules</i>	Science Library Rm 240 (12:10pm)	CEPCEB
5/15/2009 (FRI)	Cheryl Hayashi , UCR <i>The Spider Silk Gene Family: Untangling the Web</i>	Engineering II Rm138 (12:10pm)	Anand Ray
5/22/2009 (FRI)	Maxim Bazhenov , UCR <i>Role of extracellular potassium dynamics in cortical epileptogenesis</i>	Engineering II Rm138 (12:10pm)	Anand Ray
5/26/2009 (TUE)	Francis Sladek , UCR <i>HNF4 -- new ways to look at an old nuclear receptor</i>	Statistics, Rm B650 (4:10pm)	joint with Biochemistry
6/3/2009 (WED)	Alan Saghatelian , Harvard <i>TBA</i>	Science Library Rm 240 (12:10pm)	joint with IGERT
