

BPSC 250 Seminar Series, Winter 2018

When: Wednesdays, 4:10 - 5:00pm (reception 5 - 6pm)

Where: Genomics Auditorium

Date	Speaker	Host	Title
Jan. 10	Rex Bernardo Professor and Endowed Chair in Corn Breeding and Genetics Dept. of Agronomy & Plant Genetics at University of Minnesota	Jia	30 Years of Trying to Figure Out How to Use Molecular Markers in Maize Breeding
Jan. 17	Postdoc Rapid Talk Sessions #1 Honghong Wu Julie Ripplinger Elizabeth McCarthy	Giraldo Jenerette Litt	HW: Nano-technology for enhancement of salt tolerance in Arabidopsis. JR: Biogeography of urban tree diversity. EM: The genetic basis of floral color differences in <i>Nicotiana</i> allopolyploids
Jan. 24	Anuradha Prakash Professor, Director, Food Science Program Chapman University	Jia	Phytosanitary Irradiation of Fresh Fruit
Jan. 31	Mark Alber Distinguished Professor of Department of Mathematics at UCR	Jia	Coupled Multi-Scale Modeling and Experimental Study of Developmental Processes
Feb. 7	Zhenbiao Yang Professor of BPSC	Jia	TBD
Feb. 14	Norman Ellstrand Distinguished Professor of Genetics Jane S. Johnson Endowed Chair in Food and Agriculture Founder & Director	Jia	TBD
Feb. 21	Yubo Li Principle Investigator of Agricultural Genomics Institute at ShenZhen, China	Jia	Murine Transcriptional Interactome and Precision Biology
Feb. 28	Postdoc Rapid Talk Sessions #2 John Chater Jacob Landis Shibo Wang	Jia Koenig Jia	JC: Pomegranate: consumer preferences of an ancient fruit JL: Uncovering the genetic control of long-term success of barley (<i>Hordeum vulgare</i>) SW: TBD
Mar. 7	Timothy Close Professor of BPSC	Jia	Cowpea and its Genome
Mar. 14	Peter Ibsen 3 rd Year Ph.D. in Jenerette lab	Jenerette	TBD

Seminar coordinator: Arthur Jia, arthur.jia@ucr.edu, (951) 827-3987
