

BPSC 250 Seminar Series
Winter 2020 Genomics Auditorium
Wednesdays, 4:00 - 4:50 PM

Reception to follow seminar: 5-6 pm Genomics Courtyard/Lobby
 Reception to follow seminar: 5-6 pm Batchelor Hall Lobby

Date	Speaker	Title	Faculty Host
Jan 8	Adam Lukaszewski (UCR)	Evolution of Karyotypes	
Jan 15	Dr. Korbinian Schneeberger (Max Planck Institute, Koln)	Advancing the genetics and genomics of fruit tree research	Danelle Seymour
Jan 22	Dr. Pat Brown (UC Davis)	Can genomics accelerate genetic gain in tree crops?	Danelle Seymour
Jan 29	Dr. Lachezar Nikolov (UCLA)	Genetic basis of leaf form diversity	Jaimie Van Norman
Feb 5	Miwa Shirai, Stephanie Piper	<u>3rd Year Presentations</u>	
Feb 12	Eric Focht, Elizabeth Hann	<u>3rd Year Presentations</u>	
Feb 19	Dr. Rebecca Hernandez (UCD)		Loralee Larios
Feb 26	Dr. Tracy Kahn (UCR)	Citrus biology	Danelle Seymour
Mar 4	Bob Schmitz (U. of Georgia)	Epigenetics	Dave Nelson
Mar 11	First-year PLBL students	BPSC 200A seminars	Amy Litt

* The **PLBL Faculty short talks** is a series of 10-min talks by PLBL faculty aimed at introducing incoming graduate students to the work being done in different labs.
