

BPSC 250 Seminar Series
Spring 2020
Virtual Seminar
<https://ucr.zoom.us/j/94232242796>
Wednesdays, 4:00 - 4:50 PM

Date	Speaker	Title	Faculty Host
April 14	~3 rd Year Talk~ Alex White - "Understanding the specificity and dynamics of karrikin and strigolactone signaling in plants"		Zhenbiao Yang
Apr 21	~3 rd Year Talk~ Clarissa Rodriguez - "Investigating drivers and impacts of invasive species in dryland annual plant communities" James Eckhardt - " <i>Chemical and genetic dissection of natural variation in seed ABA response</i> "		Zhenbiao Yang
Apr 28	3rd Year Talks Mystyn Mills - "Restoration & Working Landscapes: Assessing, Monitoring, and Ecological Memory" Michael Guzman "Identification and characterization of karrikin signaling genes"		Zhenbiao Yang
May 5	Natalia Dudareva, Purdue University "Plant volatile emission: Beyond the traditional view"		Zhenbiao Yang
May 12	Charles Anderson, Penn State "Breaking down the barriers: cell wall depolymerization during plant development and the production of plant based biorenewables"		Zhenbiao Yang
May 19	Shuang Wu -Fujian Agriculture and Forestry University "Trichomes in Tomato: Types, Development and Functions"		
May 26	Chris Ambrose, University of Saskatchewan, Canada "Live imaging of mesophyll development and microtubule function in Arabidopsis leaves"		Zhenbiao Yang
June 2	Gomez-Pompa Lecture-Richard Bugbee "Chipé'na: Cyclical Mosaic Burns"		

* The **PLBL Faculty short talks** is a series of 10-min talks by PLBL faculty aimed at introducing incoming graduate students to the work being done in different labs.
