Grants.Gov Application Guide

A Guide for Preparation and Submission of NIFA Application via Grants.gov

June 24, 2013

Introduction

I. INTRODUCTION

1. Background

The National Institute of Food and Agriculture (NIFA) is an agency within the U.S. Department of Agriculture (USDA), part of the executive branch of the Federal Government. Congress created NIFA through the Food, Conservation, and Energy Act of 2008. NIFA replaced the former Cooperative State Research, Education, and Extension Service (CSREES), which had been in existence since 1994.

2. Purpose and Scope

This instruction document is intended to assist applicants in the preparation and submission of applications to NIFA. It is also the primary document for use in preparation of applications via Grants.gov. Where appropriate, relevant sections of the Grants.gov User Guide have been incorporated by reference.

3. Intended Audience

Individuals, organizations, etc. that meet the eligibility requirements of a NIFA funding opportunity and are interested in submitting an application to NIFA in response to a funding opportunity.

4. Document Symbols

The following symbols are used throughout this document to highlight information that is of particular interest or importance:

This symbol indicates NIFA-specific instructions.

This symbol represents a link to an important reference material.

This symbol represents a required field. Required fields in application forms are further indicated by a yellow highlight.

5. Referenced Documents

5.1 NIFA Funding Opportunity

A NIFA Funding Opportunity (e.g., request for applications, full announcement) provides information specific to an opportunity for funding through NIFA. A request for applications (RFA) includes, among other things, eligibility information and guidance for the preparation of applications for submission to NIFA. NIFA makes active funding opportunities available via Grants.gov (http://www.grants.gov) or the NIFA web site.

5.2 Grants.gov User Guide

The Grants.gov User Guide is a comprehensive reference to information about Grants.gov. Applicants can download the User Guide as a pdf document.

NIFA-Specific Instructions for Submission via Grants.gov

II. GENERAL INSTRUCTIONS FOR SUBMISSION VIA GRANTS.GOV

1. Registration Process

USDA

Before using Grants.gov for the first time, each organization must register to create an institutional profile. Once registered, the applicant's organization can then apply for any government grant on the Grants.gov website, including NIFA grants. Because of the time needed for the registration process, the process should be initiated well in advance of the electronic submission of an application.

Grants.gov Registration: http://www.grants.gov/applicants/get-registered.jsp

The registration process includes the Central Contractor Registration (CCR). CCR is the official, FREE on-line registrant database for the U.S. Federal Government. CCR collects, validates, stores and disseminates data in support of agency acquisition and award missions. CCR validates the registrant information and electronically shares the secure and encrypted data with the federal agencies' finance offices to facilitate paperless payments through electronic funds transfer (EFT). Registrants are required to complete a one-time registration to provide basic information relevant to procurement and financial transactions. Registrants must update or renew their registration at least once per year to maintain an active status.

Entities (private non-profits, educational organizations, state and regional agencies, etc.) that apply for assistance awards from the Federal Government through Grants.gov must register with CCR. Each entity that applies and does not have an exemption under Sec. 25.110 of 2 CFR will: (1) Be registered in the CCR prior to submitting an application or plan; (2) Maintain an active CCR registration with current information at all times during which it has an active Federal award or an application or plan under consideration by an agency; and (3) Provide its DUNS number in each application or plan it submits to the agency (the DUNS Number is assigned by Dun & Bradstreet, Inc. (D&B) to identify unique business entities).

Registration in no way guarantees that a contract or assistance award will be awarded. Please note that any information provided in your registration may be shared with authorized federal government offices.

Beginning August 9, 2011, the Grants.gov validation process will include a check for an active CCR registration (applicants with expired CCR registrations will be rejected).

In July 2012, the System for Award Management (SAM), a new system that was combines eight federal procurement systems, including the Central Contractor Registry (CCR), and the Catalog of Federal Domestic Assistance into one new system, is expected to be implemented. Once implemented, the CCR activities will be conducted through SAM (the CCR website will redirect users to SAM). At that point, those organizations that need to register will visit https://www.sam.gov/sam/. Those organizations that already have a CCR registration will visit the SAM website and should note the following:

- You'll create a new SAM User ID and Password.
- Your CCR permissions will be verified via your email account.
- Your CCR registration information (Entity Information) will be waiting for you in SAM.

2. Software Requirements¹

2.1 Adobe Reader

In order to access, complete and submit applications, applicants must download and install a version of Adobe Reader compatible with Grants.gov. **This software is essential to apply for NIFA Federal assistance awards.** For basic system requirements and download instructions, please see the Grants.gov User Guide.

To verify that you have a compatible version of Adobe Reader, Grants.gov established a test package that will assist you in making that determination.

¹ Note: If the applicant has problems setting up software on their machine, the applicant may not have security permissions to install new programs on their system. If that is the case, they should contact their organization's system administrator.

III. NIFA-SPECIFIC INSTRUCTIONS FOR SUBMISSION VIA GRANTS.GOV

1. Comments on NIFA Instructions

To submit comments to NIFA regarding the content of the NIFA Grants.gov Application Guide send an e-mail to: policy@nifa.usda.gov (this e-mail address is intended only for receiving comments). Please include "NIFA Grants.gov Application Guide" in the subject line of the e-mail and detailed information regarding the comment.

2. Components of a NIFA Application

The documents listed in Table 1 are components that may be part of a NIFA application. The Grants.gov Application Package for the funding opportunity will identify which forms are required (must be submitted to NIFA as part of the application) and which one(s), if any, are optional (may, as necessary, be submitted to NIFA as part of the application). Detailed instructions for completing the documents can be found on the page indicated in the table.

Table 1: Components of a NIFA Application

Document	Instructions
R&R SF424 Cover Sheet	See Part V.
R&R Project/Performance Site Location(s)	See Part V.
R&R Other Project Information	See Part V.
R&R Senior/Key Person Profile (Expanded)	See Part V.
R&R Personal Data	See Part V.
R&R Budget	See Part V.
R&R Subaward Budget Attachment	See Part V.
Supplemental Information	See Part VI.
NRI Proposal Type Form	See Part VI.
SBIR/STTR Information	See Part VI.

3. Conformance with Application Preparation Requirements

It is imperative that all applications conform to the application preparation and submission instructions. All attachments to an application **must** comply with NIFA font, spacing and margin requirements **and MUST be in pdf** (portable document format) (see Part III., 3.1) **otherwise the application is at risk of being excluded from NIFA consideration or handled otherwise.** Please note that a NIFA RFA may include specific requirements; therefore, it is critical to pay particular attention to any related language in the RFA. NIFA may exclude from consideration applications that are not consistent with these instructions or those included in the applicable RFA.

Grants.Gov Application Guide

A Guide for Preparation and Submission of NIFA Application via Grants.gov

June 24, 2013

NIFA-Specific Instructions for Submission via Grants.gov

3.1 Attachments (Required to be in pdf)

- A. <u>Format of Contents:</u> Attachments to an application should be a typed or word processed document using no type smaller than 12 point font regardless of line spacing with at least one-inch margins. Each page of an attachment should be numbered sequentially. These specifications apply unless noted otherwise in a request for applications (RFA). If a page limitation applies to a specific attachment it will be noted in this Guide or the RFA.
- B. <u>File Format:</u> NIFA **REQUIRES** the electronic application attachments be in **portable document format (pdf)**. Using pdf format allows applicants to preserve the formatting of their documents. In order to save a document as a pdf, the applicant will need to use pdf generator software. Grants.gov has published the following web page on tools and software that the applicant can use:

Tools and software the applicant can use for portable document format:

http://www.grants.gov/help/download_software.jsp#pdf_conversion_programs

- C. <u>File Name Restrictions:</u> File names of pdf attachments must be limited to 50 characters, may not include special characters (e.g., &,-,*,%,/,#), periods (.), blank spaces or accent marks, and must be unique (i.e., no other attachment may have the same file name). An underscore (example:my_Attached_File.pdf) may be used to separate a file name.
- D. <u>File Protections:</u> The pdf attachment must **NOT** be password protected. This requirement includes attachments that are submitted as part of a multi-organization application; therefore, the lead institution should ensure, prior to application submission, that documents from collaborators are **NOT** password protected.

ANY APPLICATION NIFA RECEIVES CONTAINING ATTACHMENTS THAT ARE NOT COMPLIANT WITH A. THROUGH D. ABOVE ARE AT RISK OF BEING EXCLUDED FROM NIFA CONSIDERATION.

ATTENTION: There is a paper clip icon on the left side of the page in every application. Do NOT attach documents with this function. If you attach documents under this function your application will be incomplete and cause errors.

4. Submission of Same Application to Multiple Agencies

Concurrent submission of an application to other organizations for simultaneous consideration will not prejudice its review.

5. Submission of an Application for NIFA Review

An application may be submitted only once to NIFA. The submission of duplicate or substantially similar applications concurrently for review by more than one program will result in the exclusion of the redundant applications from NIFA consideration.

6. Application Status

6.1 Grants.gov Application Status and Viewing the Application Manifest

Within two days of submitting a grant application, Grants.gov will send two email messages to the applicant:

- The first will confirm receipt of the application by the Grants.gov system.
- The second will indicate that the application has either been successfully validated by the system prior to transmission to the grantor agency OR has been rejected due to errors.

Grants.Gov Application Guide

A Guide for Preparation and Submission of NIFA Application via Grants.gov

June 24, 2013

NIFA-Specific Instructions for Submission via Grants.gov

If the application was successfully validated then Grants.gov will send a third e-mail that the application
has been passed to the Agency.

There are two ways to verify the status of an application submitted to Grants.gov. One way is to use the "Track My Applications" under the Applicants section of Grants.gov. This does not require a user name or password. The second way is to "Check My Application Status" under Applicant Login located under the Applicants section of Grants.gov. This status requires a user name and password to be accessed and used. This latter option provides the applicant the opportunity to view a "manifest" of submitted forms and files within Grants.gov. This manifest will allow the applicant to review the list of forms and file attachments that were properly uploaded and received by Grants.gov.

OPTION 1 – Check status of application

Check Grants.gov Application Status on the Track My Application Page:
https://apply07.grants.gov/apply/checkApplStatus.faces Once on the Track My Application page, enter up to five Grants.gov tracking numbers (one per line) and select the Track button. The system will display general information about the status of each application in a chart format as shown below.

Application status of tracking number(s) are listed below:

CFDA	Opportunity Number	Comp. ID	Grants.gov #	Date/Time Received	Status	Status Date
10.310	USDA-NIFA-AFRI-003742		GRANT11149830	05-Jun-12 01:01:58 PM	Rejected with Errors	05-Jun-12 01:03:21 PM

OPTION 2 - Check status of application and view manifest of submitted forms and files

Check Grants.gov Application Status on the Check My Application Status Page: https://apply07.grants.gov/apply/login.faces?cleanSession=1&userType=applicant

Once logged in using the above link you will be in the Applicant Center. In the applicant center choose the "Check My Application Status" link. You will be given the option to search for your application(s) in several different ways. Choose the one that best fits what you are searching for and how the information should be displayed to you. Once you have made your selection(s) you will be presented with a chart as shown below. One of the columns in the chart is entitled, Submission Name/Files. You may view the list of file(s) and attachment(s) (i.e., the manifest) submitted for a particular application by selecting the link in the Submission Name/Files column for that application.

CFDA	Opportunity Number	Comp. ID	Grants.gov #	Date/Time Received	Status	Status Date	Agency Tracking # and Notes	Submission Name/Files

It is extremely important for the applicant to thoroughly review the manifest to ensure that required attachments outlined in the RFA are included and follow PDF requirements (see Part III Section 3.1 of this Guide for NIFA attachment specifications). Submitted applications that do not contain the required forms and file attachments will not be reviewed.

Grants.Gov Application Guide

A Guide for Preparation and Submission of NIFA Application via Grants.gov

June 24, 2013

If issues are found with the manifest, applicants are to submit the application:

PRIOR to the deadline – It is preferable that applicants correct the application and submit it prior to the established deadline for the applicable funding opportunity. The applicant MUST notify the Agency Contact (identified in Part VII of the applicable request for applications) via telephone or email so s/he is aware that there are two applications and that one is to be accepted and the other removed from consideration. Without the notification, both applications may be excluded from consideration per section 5. of this Part.

<u>FOLLOWING</u> the deadline – Applicants are advised to correct the application and submit it as soon as is feasibly possible. Note, however, that this latter submitted application will be considered late (see "meeting the deadline" under Part IV, 1.9 of this Guide) and documentation of the extenuating circumstance (e.g., hurricane, flood, fire) must be provided accordingly. The applicant MUST notify the Agency Contact identified in Part VII of the applicable request for applications) via telephone or email so s/he is aware that there are two applications and that one was submitted prior to the deadline with issues and a corrected version submitted following the deadline. Without the notification, both applications may be excluded from consideration per section 5. of this Part. If the late application is not accepted for consideration it is possible that the one submitted prior to the deadline may be accepted for consideration if it meets Grants.gov and agency validation processes.

6.2 USDA/NIFA Application Status

NIFA will send two email messages to the applicant.

- The first will confirm receipt of the application by NIFA.
- The second will indicate that the application has either been accepted OR declined for review by NIFA.

7. Grants.gov and NIFA Assistance

7.1 Grants.gov Contact Center

If help is needed with the Grants.gov registration process for the applicant organization, downloading or navigating Adobe forms, or with the technical aspects of submitting to the Grants.gov system, check the resources available on the Grants.gov web site first (http://www.grants.gov). The Grants.gov Help page (http://www.grants.gov/help/help.jsp) contains useful information including answers to frequently asked questions (FAQs).

Grants.gov assistance is also available as follows:

Grants.gov customer support 1-800-518-4726 Toll-Free or 606-545-5035

Business Hours: 24 hours a day, 7 days a week. Closed on Federal Holidays.

Email: support@grants.gov

If the Authorized Representative (AR) has not received a confirmation message from Grants.gov within 48 hours of submission of an application, please contact Grants.gov customer support.

When Grants.gov is contacted, a ticket number is issued to track the response. The applicant should maintain the ticket number as documentation of electronic issues associated with the application.

Grants.gov Help Desk Operations Process is described below

Tier 1: Grants.gov Contact Center Operator

- Handles the initial contact and attempts to resolve the call.
- If not, files a research request (escalation).

Tier 2: Research Analyst

- Escalations go to the research analyst who does further research on the issue.
- Unable to resolve, issue escalated to Grants.gov Program Management Office (PMO).

IV. GRANT APPLICATION PACKAGE INSTRUCTIONS

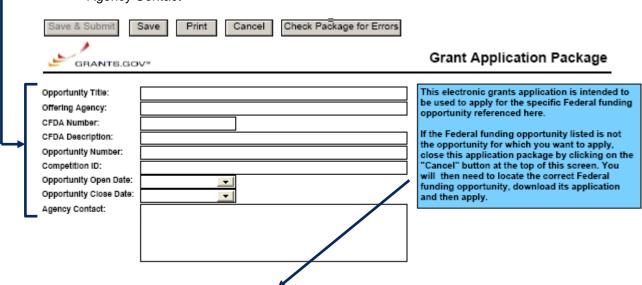

1. Grant Application Package

A Grant Application Package is tied to a particular funding opportunity. Applications prepared using the Grant Application Package may ONLY be submitted to the particular funding opportunity to which the Grant Application is associated. In other words, an application prepared using a Grant Application Package **may not** be submitted to a different funding opportunity; one must access the Grant Application Package associated with said funding opportunity and prepare and submit the application to that funding opportunity.

1.1 Verify Grant Information

Verify that the information shown corresponds to the grant for which the applicant wishes to apply. Grants.gov will auto-populate the following information:

To access help tips scroll over a field on the form/document to reveal the help text for that field. Not every field has a help tip.

1.7 Saving the Application

The application package can only be saved from the Grant Application Package screen. It is recommended that after the applicant completes each form/document that they save the application package by clicking on the "Save" button at the top of the Grant Application Package Screen. It is important to note that the application package will be saved to the last active directory on the applicant's computer. Therefore, the applicant should save the application package to their hard drive where it can be easily accessed. The applicant may save their application package at any time and should save the application package with the same file name each time.

1.8 Check Package for Errors

To initiate the Grants.gov edit check process, simply click on the "Check Package for Errors" button at the top of the screen.

This process will identify all mandatory fields that have not been completed by the applicant. These errors will be displayed one at a time.

USDA

No checks against NIFA business rules will take place at this time (e.g., no checks will occur to ensure compliance with the pdf attachment requirement, formatting requirements). Beginning August 9, 2011, the Grants.gov validation process will include a check for an active Central Contract Registry (CCR) registration (applicants with expired CCR registrations will be rejected) (see section 1.9 below for further information about the submission process). In July 2012, the CCR registration activities will be conducted through the System for Award Management (SAM). See Part II.1. for more detailed information.

ATTENTION: There is a paper clip icon on the left side of the page in every application. Do NOT attach documents with this function. If you attach documents under this function your application will be incomplete and cause errors.

Grants.gov Submission Tips: http://www.grants.gov/applicants/submit_application_fags.jsp

Described below are the requirements for successful submission of an application, all of the following steps must be met for an application to be considered for competitive peer review:

Meeting the deadline: To electronically send the application to Grants.gov the submit button is hit, which triggers a date and time stamp on the application. The date and time stamp is used to determine whether the application was received by Grants.gov before the deadline, which is prior to close of business (5:00 p.m. Eastern Time) on date as identified in the applicable request for applications. An application submitted or resubmitted after the deadline is late. Consideration of late applications is only given in extenuating circumstances (e.g., natural disasters, confirmed Grants.gov outage) with proper documentation and support of the Agency Contact (see Part VII of the request for applications; for the Small Business Innovation Research program (SBIR) the Program Contacts are specified under subsection 1.5 of the SBIR Program Solicitation). The occurrence of one of these situations does not automatically ensure that a late application will be accepted. If an applicant wants a late application considered under an extenuating circumstance, the applicant should contact the Agency Contact accordingly.

Successful Grants.gov validation: The Grants.gov system performs a limited check of the application (see section 1.8 above), and applicants are notified by Grants.gov of the outcome of the initial review. Beginning August 9, 2011, the Grants.gov validation process will include a check for an active CCR

registration (applicants with expired CCR registrations will be rejected). In July 2012, the CCR registration activities will be conducted through the System for Award Management (SAM). See Part II.1. for more detailed information.

- 2) Applications meeting Grants.gov requirements are made available to the funding agency for further processing. Applications that fail Grants.gov validation may be resubmitted to Grants.gov if the original agency deadline has not passed. (Note that the Grants.gov system may allow applications to be submitted after the deadline has passed, but the application is considered late by NIFA.)
- 3) Successful Agency validation: NIFA staff perform precursory review of the application. The agency validation process includes, for example, meeting eligibility requirements and following agency application guidelines (e.g., formatting, page limitations, limits on budget requests). Applicants are notified by NIFA of the outcome of this review.

Checking the List of Forms and File Attachments in Grants.gov

After submitting an application, the applicant can view a "manifest" of submitted forms and files within Grants.gov. This manifest will allow the applicant to review the list of forms and file attachments that were properly uploaded and received by Grants.gov.

For information about how to check an application's status within Grants.gov, how to view its manifest, and what to do should there be issues with the manifest, see Part III, 6.1.

It is extremely important for the applicant to thoroughly review the manifest to ensure that required attachments outlined in the RFA are included and follow PDF requirements (see Part III Section 3.1 of this Guide for NIFA attachment specifications). Submitted applications that do not contain the required forms and file attachments will not be reviewed.

Applicants are advised that NIFA may exclude from consideration applications that are not consistent with these instructions. The NIFA applicant is required to complete and submit the following SF 424 (R&R) forms as part of the application package:

- SF 424 (R&R) Cover Sheet;
- SF 424 (R&R) Performance Site Locations;

2.21 Enter Pre-Application (Field 20 on the Form)

If submitting a pre-application, provide a summary description of the project in accordance with the announcement and/or agency-specific instructions and attach here.

Infrequently, a NIFA funding opportunity will require or request submission of a preliminary application in advance of submission of a full application. The two predominant reasons for requiring submission of a preliminary application are to:

- Reduce the applicant's unnecessary effort in application preparation when the chance of success is very small. This is particularly true of exploratory initiatives where the community senses that a major new direction is being identified, or competitions that will result in a small number of actual awards; and
- Increase the overall quality of the full submission.

The NIFA RFA will specify the content and submission requirements in Section V.A of the RFA when preliminary applications are to be utilized. Note that a pre-application is not the same as a Letter of Intent which NIFA, in some cases, may utilize. The RFA will state when a pre-application or a Letter of Intent is to be submitted, if appropriate; the RFA will remain silent if the items are not utilized.

Provide a biographical sketch for the PD/PI. Recommended information includes - Education and Training, Research and Professional Experience, Collaborators and Affiliations (for conflicts of interest), Publications and Synergistic Activities. Save the information in a single file and attach here. This field is required.

The biographical sketch should be limited to two (2) pages each in length, excluding publications listings. The vitae should include a presentation of academic and research credentials, as applicable; e.g., earned degrees, teaching experience, employment history, professional activities, honors and awards, and grants received. A chronological list of all publications in refereed journals during the past four (4) years, including those in press, must be included. Also, list only those non-refereed technical publications that have relevance to the proposed project. All authors should be listed in the same order as they appear on each paper cited, along with the title and complete reference as these usually appear in journals. See Part III Section 3.1 of this Guide for NIFA attachment specifications.

5.3 Attach Current and Pending Support

Provide a list of all current and pending support for the PD/PI (even if they receive no salary support from the project(s)) for ongoing projects and pending proposals. Show the total award amount for the entire award period (including indirect costs) as well as the number of person-months per year to be devoted to the project by the senior/key person, regardless of source of support. Concurrent submission of a proposal to other organizations will not prejudice its review.

Research and Related (R&R) Forms and Instructions

A suggested template for the current and pending support is located at http://www.nifa.usda.gov/funding/templates/current_pending.doc. A current and pending support list should be included for the PD/PI even if no other funding is currently reported as "Active," this application is to be identified as "Pending" in the information submitted. Please note that the project being proposed should be identified as pending in the attached document. The percent of time committed should not exceed 100% of effort for concurrent projects. An application that duplicates or overlaps substantially with an application already funded (or to be funded) by another organization or agency will not be funded under this program. Prepare the current and pending support list(s) following the instructions and format noted below. See Part III Section 3.1 of this Guide for NIFA attachment specifications.

Instructions:

- 1. Record information for active and pending projects, including this proposal. (Concurrent submission of a proposal to other organizations will not prejudice its review by NIFA.)
- 2. All current efforts to which project director(s) and other senior personnel have committed a portion of their time <u>must</u> be listed, whether or not salary for the person involved is included in the budgets of the various projects.
- Provide analogous information for all proposed work which is being considered by, or which will be submitted in the near future to, other possible sponsors including other USDA programs.

Enter information for Senior/Key Person 1 following the instructions included in Sections in 5.1, 5.2, and 5.3.

Select "**Next Person**" to enter the next senior/key person entry. Complete the same information noted in Sections 5.1 through 5.3 for additional senior/key persons.

A PD/PI is the individual(s) a research organization designates as having an appropriate level of authority and responsibility for the proper conduct of the project, including the appropriate use of funds and administrative requirements such as the submission of progress reports to the agency. When an organization designates more than one PD/PI, it identifies them as individuals who share the authority and responsibility for leading and directing the project, intellectually and logistically. The sponsoring agency does not infer any distinction in scientific stature among multiple PD/PIs. To facilitate communication with NIFA, the submitting entity will be asked to select a contact PD/PI at the time of application. The contact PD/PI is the individual entered on the SF-424 R&R Cover Sheet (see Part V 2.15).

NIFA will recognize, on any award that is issued as a result of the application, all the PD/PI co-PD/PIs entered on this form (any individual listed as a "co-investigator" are not identified on the award). You must attach "Current and Pending Support" information for each key person identified. Even if no other funding is currently reported as "Active," this application is to be identified as "Pending" in the information submitted.

To ensure proper performance of this form; after adding 20 additional Senior/ Key Persons; please save your application, close the Adobe Reader, and reopen it.

The Federal government has a continuing commitment to monitor the operation of its review and award processes to identify and address any inequities based on gender, race, ethnicity, or disability of its proposed PDs/PIs and co-PDs/PIs. To gather information needed for this important task, the applicant should submit the requested information for each identified PD/PI and co-PD/PIs with each proposal. Submission of the requested information is voluntary and is not a precondition of award. However, information not submitted will seriously undermine the statistical validity, and therefore the usefulness, of information received from others. Any individual not wishing to submit some or all the information should check the box provided for this purpose. Upon receipt of the application, this form will be separated from the application. This form will not be duplicated, and it will not be a part of the review process. Data will be confidential.

To meet the responsibilities of the Department of Agriculture, 7 U.S.C. 3121, NIFA must collect certain information to maintain its Privacy Act Record System, Privacy Act of 1974, 5 U.S.C. 552a. Such information includes the race and ethnicity information of the PD/PI and Co-PDs/PIs. This information is used only for tracking and statistical purposes necessary to meet the demands of the agency and will not be part of the review process. This information is purely voluntary in which case the failure or refusal to provide the information would not deny an individual any right, benefit, or privilege provided by law. However, it is strongly encouraged that applicants provide the requested information to increase the quality of the NIFA database, aid in verification of eligibility for certain programs and to have a unique identifier for principal investigators/project directors to aid in tracking grantees from one institution to another.

Many NIFA programs have statutory limits on the amount of F&A/indirect cost recovery. This limitation flows down to subcontracts. Check Part IV, D. of the request for applications (RFA) for the limitations, if any, on F&A/indirect costs (for the Small Business Innovation Research program (SBIR) indirect cost information is specified under subsection 3.3 of the SBIR Program Solicitation). If indirect costs are allowed under the program, then the following applies as appropriate:

- When NIFA is not the cognizant Federal agency. The applicant must have a basis for requesting indirect costs in the application budget. The applicant should use the current negotiated indirect cost rate established by its cognizant Federal agency (the agency that provides the most funds). If the applicant does not have a current negotiated rate agreement, the applicant should calculate a rate in order to request indirect costs. If awarded, the applicant will be required to produce a negotiated indirect cost rate agreement from the cognizant agency in order to recover indirect costs. Applicants may request (i.e., budget) indirect costs using the lesser of: (a) the negotiated rate; or (b) the maximum statutory rate stated in the Request for Application, if any. If unable to obtain a negotiated rate from its cognizant agency, the applicant is not permitted indirect cost reimbursement. Rather, the applicant may only be reimbursed for allowable direct costs. Violation of Cost Accounting Standards is not permitted when re-budgeting or charging costs to awards.
- When NIFA is the cognizant Federal agency. The applicant must have a basis for requesting indirect costs in the application budget. If the applicant does not have a negotiated rate, and NIFA is the cognizant agency, the applicant must calculate an indirect cost rate in order to request indirect costs. NIFA's indirect cost website provides several sample indirect cost rate calculations. NIFA's website is found at: http://www.nifa.usda.gov/business/pdfs/est_indir_cost_rates_2012.pdf. During the application process, the applicant is not required to complete the entire indirect cost package identified on NIFA's website. Rather, the applicant need only calculate an indirect cost rate to serve as a basis for requesting indirect costs. If awarded, the applicant will be required to submit a complete Indirect Cost Proposal (ICP) package as explained on NIFA's indirect cost website.

2.1 Integrated Project Proposal

If the project involves any combination of research, education, and extension activities, with the provision that the project include at least two of the three stated components, then check "Integrated Project Proposal."

2.2 Research Project Proposal

If the project is to involve fundamental or mission-linked research that is conducted by individual investigator(s) within the same discipline or multidisciplinary teams, as appropriate, check "Research Project Proposal."

Select one of the three types of Research Project Proposals: Standard Research Project, Conference, or Agricultural Research Enhancement Award. The AREA award types are the same as those described in the request for applications for the Food and Agricultural Science Enhancement (FASE) awards.

- Standard Research Project is one that is for fundamental or mission-linked research that is conducted by individual investigator(s) within the same discipline or multidisciplinary teams.
- Conference is a project that is for scientific meetings that bring together scientists to identify research needs, update information, or advance an area of research that is recognized as integral parts of research efforts.
- Agricultural Research Enhancement Award (AREA) or Food and Agricultural Science Enhancement (FASE) awards are designed to help institutions develop competitive research programs and to attract new scientists into careers in high-priority areas of national need in agriculture, food, and environmental sciences.²

If the type of Research Project Proposal is an Agricultural Research Enhancement Award (AREA) or Food and Agricultural Science Enhancement (FASE) award, select the descriptor(s) that best fit the application: Postdoctoral Fellowship, New Investigator, and/or Strengthening.

- Postdoctoral Fellowship is for individuals who have recently received or will soon receive their doctoral degree.
- New Investigator is one who is beginning his/her research career, does not have an extensive research publication record, has less than five years postgraduate, career-track research experience, and has not received competitively awarded Federal research funds beyond pre- or postdoctoral research awards.²
- Strengthening category consists of four categories: Standard Strengthening, Equipment, Seed Grant, and Career Enhancement.

If the Area Research Enhancement Award (AREA) or Food and Agricultural Science Enhancement (FASE) award is a New Investigator and a Strengthening then the AREA category, Standard Strengthening, should be completed.

If the Area Research Enhancement Award (AREA) or Food and Agricultural Science Enhancement (FASE) award is a Strengthening, then check whether the application is a Standard Strengthening, Equipment, Seed Grant, or Career Enhancement.

- Standard Strengthening is a project that provides an opportunity for faculty to enhance their research capabilities by funding sabbatical leaves.²
- Equipment is a request for funds that will be designated for equipment to strengthen the research capacity of the institution.²
- Seed Grant is a request for funds to enable investigators to collect preliminary data in preparation for applying for a Standard Research Grant.²
- Career Enhancement is a request for funds to provide an opportunity for faculty at institutions meeting specific criteria to enhance their research capabilities by funding sabbatical leave.²
